

Belgium

Charles & Amanda Gravely

Reaching Belgium by
reaching University Students

How campus ministry impacted our lives

We believe in campus ministry because our lives were changed through Chi Alpha campus ministry. While students at secular colleges, Charles at the University of Alabama and Amanda at the University of Northern Colorado, we encountered what it means to be a disciple of the Lord Jesus.

Our Vision for reaching Belgium

We believe that reaching students during their years at university is crucial to changing this country. Through contact and relational evangelism, and mentoring believing students, we want to create a community of believers that will lift up Jesus.
