

Laugh Out Loud

Laugh Out Loud Ministries was started to show God's love to neglected and disadvantaged children and young adults. They are located in the heart of Central America in the country of Belize. Belize is an undeveloped nation sandwiched between Mexico and Guatemala. Melissa and Jervis Fisher along with their three children heard the voice of God to give up their life in America. They packed up and moved to Belize in early 2008 to serve the lord and reach the unloved children.

LOL believes that God has uniquely gifted people and put a passion in them for a ministry that glorifies God and edifies people. They want to disciple the children while teaching them skills they can use in their future. Many of these children have gifts inside of them they would never have the opportunity to know about. They want to give the opportunity to glorify God with the gifts God gave them.

LOL has almost completed the permanent building to house their family, missionaries and children. They have already taken in several children, helped provide life saving surgery to a baby, as well as adopted out orphaned children to loving families. They also help out the nearby villages in several ways. They have dug wells to provide fresh drinking water, build homes for families without, transportation to and from church. They also host several interns to come down and learn the ins and outs of being in full time missions.
