

# Jesus Approves This Message

My friends and family know how cray cray I get about some of my selections of music because after all my taste in music is only the best music ever. After all they say go hard or go home lol. You can make fun and you can say that I'm weird, but soon you will be jammin on to the same songs because even Jesus approves of them. Any who let me get on with it.

I love CHRISTIAN RAP. yes I said it ONE ONE SIX till he day I die.

Let me give you a little background story. In sixth grade I accepted Christ into my heart and it was awesome but I started to realize that I was listening to all this secular music that talked about all the worldly things that I didn't want filling my mind. I'm not saying that all secular music is bad or that I don't listen to it because trust me I love getting crunk to Black Eyed Peas, Miley Cyrus, and Taylor Swift. I started to look for new artists to listen to. I came across a group called one one six and this is where it all started. I think the main reason I liked them so much is because it was all the rage in middle school to listen to rap mainly for the beat.

I am going to share some of my favorite songs with you. The ones with stars by them are my all time favorites.
